PPP 10 HOLE NEST BOX

10 Hole Nest Box

An ideal way to keep eggs clean and away from other egg laying hens.

All parts are manufactured from galvanised steel or plastic (removable for cleaning) and the only part made of wood is the outside perch.

The nest box is sold in a kit set farm.

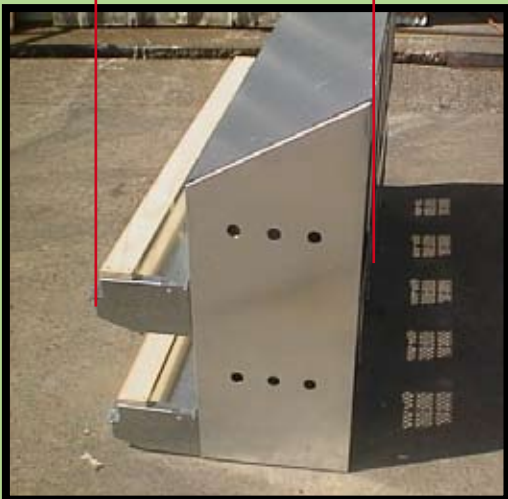

The egg collection channel can be at either the front or the back of the nest box.

5 Birds per hole - or 50 birds per nest box

1.330 meters

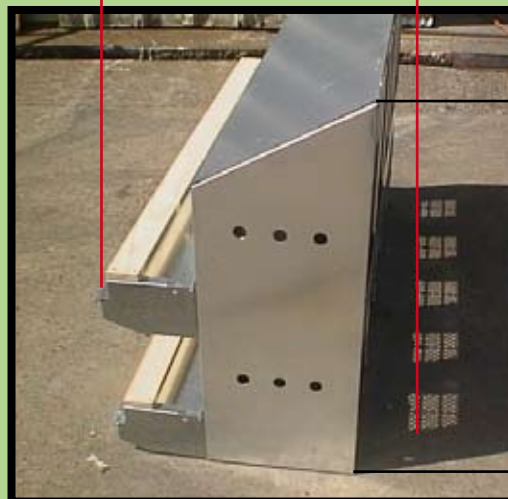

0.515 meters

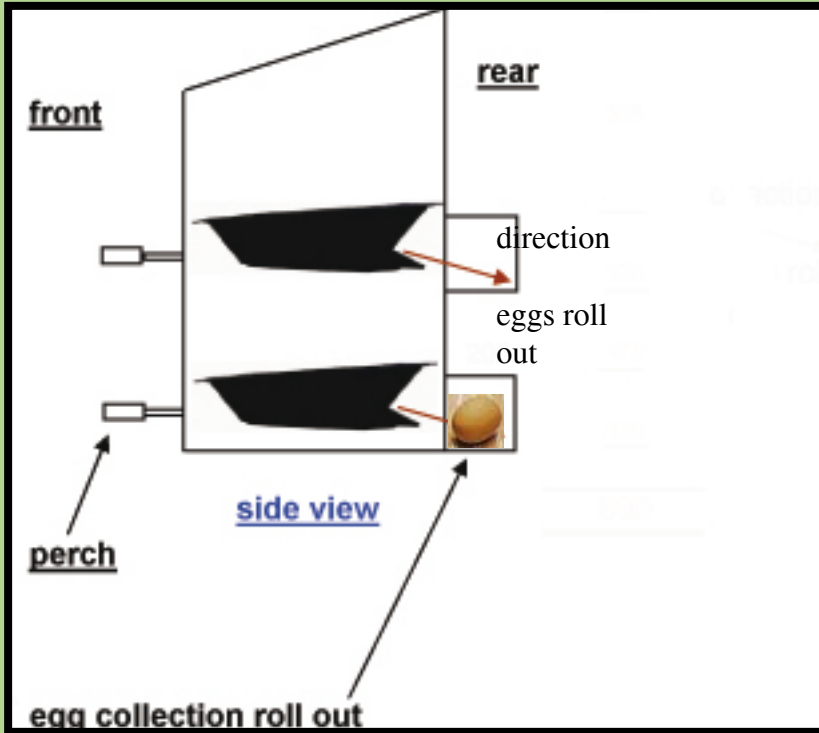

Front roll egg collection

0.515 meters
